

# DLF Product Display Order Form 2016-2017

Thank you for choosing to display your product at the Designers' Lighting Forum. Our meetings are an excellent, direct method to display your product to a targeted group of designers and specifiers in the local design community.

Each table will be at least a standard 6' banquet table. Power is available, however you are responsible for bringing extension cords and plug strips to power your display. Each table purchase includes meeting admission for two individuals. Additional individuals will need to pay reduced admission to the meeting.

## Meetings with Product Displays

The following meetings will present product displays. Location will be determined closer to the event date. Check your chosen meetings in the right column and the number of additional tables you would like.

Meeting Date	Seminar Topic & Keynote Speaker	Check
November 9, 2016	LEDquake 2.0 Earth-shaking, award-winning new SSL products. Ground-breaking lighting design presentations by KGM and LPA.	
February 7, 2017	Clarifying Confounding Control Confusion by Steve Mesh.	
April 4, 2017	To Have and Have Not: a Tale of Two Libraries by Patrick Quigley
