

DLF Product Display Order Form 2018-2019

Thank you for choosing to display your product at the Designers' Lighting Forum. Our meetings are an excellent, direct method to display your product to a targeted group of designers and specifiers in the local design community.

Each table will be at least a standard 6' banquet table. Power is available, however you are responsible for bringing extension cords and plug strips to power your display. Each table purchase includes meeting admission for two individuals. Additional individuals will need to pay reduced admission to the meeting.
